1. Per your request, the following are proposed FY 1988 CCISCMO goals.

- o The third and fourth (final) biannual report for the President on the status of issues and actions detailed in the President's Report to the Congress on the Nation's Counterintelligence and Security Countermeasures Plans, Programs, and Capabilities [redacted]

25X1

- o Ensure the continued vigorous, coordinated approach to discussion and solution of Community-wide problems in the SCI arena.

c. The final goal to be achieved is to obtain from senior management a decision to support fully or discontinue the Unauthorized Disclosure Analysis Center (UDAC). The UDAC has developed a logical approach to detect leaks and seek coordinated action to investigate them, but without a well-defined and strongly supported Community infrastructure, it cannot function effectively. 

25X1

2. ICS Goals: Complete planning for consolidation of ICS space with adequate facilities, including parking, communications, Community access, and security.
